Subject: Second Review of Notice of Intention to Commence Large Mining Operations,  
Western Rock Products, Nichols Pit, M/021/039, Task ID# 2098, Iron County,  
Utah

Dear Mr. Roth:

The Division has completed a review of your initial response for the Nichols Pit received January 23, 2007. After reviewing the information, the Division has the following comments, which need to be addressed before tentative approval may be granted.

The comments are listed below under the applicable Minerals Rule heading. Please address only those items requested in the attached technical review. Send replacement pages of the original notice **using redline and strikeout text** and indicate how these are to be incorporated into the plan using the attached Form-MR-REV-att. After you have corrected the deficiencies and the notice is determined technically complete you will be asked to send us two clean copies of the complete Notice of Intention; one copy will be returned.

The Division requests that submittals are made according to the following format. Notices and changes should be three hole punched, maps folded and placed in a plastic 8 ½ by 11 sleeve, and binders provided for new notices, revisions, applications, or other changes of 30 pages or more (binders need only be provided once). Applications should not be hard bound.

If you have any questions in this regard please contact me, Lynn Kunzler or Tom Munson of the Minerals Staff. If you wish to discuss this review, please contact us at your earliest convenience. Thank you for your cooperation in completing this permitting action.

Sincerely,

Susan M. White  
Mining Program Coordinator
